PROFESSIONAL SUMMARY

Entry-level Full Stack Java Developer with hands-on experience developing REST APIs and full-stack web applications using Java, Spring Boot, Hibernate, Angular, JDBC, and MySQL. Seeking a Software Engineer / Java Full Stack Developer role to contribute to scalable applications while continuously improving technical expertise.

TECHNICAL SKILLS

Languages: Java (Core & Advanced), SQL

Frameworks: Spring Boot, Spring MVC, Spring Framework, Spring Data, Spring Security

Backend: JDBC, REST APIs, Maven, JSON, Exception Handling, Collection Framework, Multithreading, MVC Architecture

Testing: JUnit, Mockito, API Testing, Postman

Database: MySQL, CRUD

Frontend: HTML5, CSS3, JavaScript, Typescript, Bootstrap 5, Angular

Tools: IntelliJ IDEA, Eclipse, VS Code, Git, GitHub, Figma, Apache Tomcat

Methodologies: Agile / Scrum, Git Workflow, Debugging, Code Review

PROJECTS

1. Job Portal System – Aitrich Technologies (June 2025 – Present)

- Developed a full-stack Job Portal using Java, Spring Boot, Hibernate and MySQL.
- Built and integrated 15+ REST APIs for recruiter and job seeker modules.
- Designed and managed 10+ relational database tables with CRUD operations and optimized SQL queries.
- Implemented secure authentication and role-based access using Spring Security.
- Used Git and GitHub for version control following Git workflow
- Developing responsive UI using HTML, CSS, Bootstrap, TypeScript, and Angular.

2. Fuzzy Set Theory – Academic Project (June 2024 – March 2025)

- Designed and implemented fuzzy logic models to manage uncertainty in datasets.
- Applied mathematical concepts to real-world data analysis and problem-solving

INTERNSHIP

Java Full Stack Development Intern – Aitrich Academy (2025 – 2026)

- Developed Java and Spring Boot applications following MVC architecture.
- Built REST APIs integrated with MySQL databases.
- Performed API testing using Postman and unit testing using JUnit.
- Used Git/GitHub for collaborative development in an Agile environment.

EDUCATION

Bachelor of Science in Mathematics – Calicut University (2022 – 2025)

CERTIFICATIONS

- Certified System Analyst
- Core Java Developer
- Advanced Java Developer
- Certified Spring Boot Developer
- Certified Agile Practitioner
- Certified Software Engineering Beginner
- Certified UI UX Designer
- Certified Web Developer
- Junior software development analyst
- Certified Test driven Developer
- Certified Java script Developer
- Certified Advanced Angular Developer
- Advanced Full Stack developer
